

Carl Leon

EXPERIENCE

Worked in Fresno High school's
Drama Club

February 2022 - June 2024

- During my first year in drama club, I helped manage the sound for two shows. As the sound tech, I made sure everyone had their microphones on when they had to be and I adjusted the volume on their microphones.
- And during my second year I was an actor in our last production of the 2024 school year where I played a semi-lead role.

Created websites and prototypes

October 2023 - June 2024

- While taking Web Application Design at the Center for Advanced Research and Technology I helped in creating a website dedicated to Jurassic Park. For the website I mainly did HTML and the prototypes. We made the prototypes using the design app called Figma

ABOUT ME

I am great at communicating and getting people to communicate with each other. I enjoy being around people and I am willing to learn any skills I may need in the future. I try my best to understand the task at hand and ask questions when needed. I also love art and enjoy doing creative things like painting, drawing, designing, music making, and acting.

SKILL

- HTML
- CSS
- JavaScript
- Canva
- Figma
- Communication
- Art (in most mediums)

EDUCATION

Fresno High
Center for Advanced Research and
Technology
Graduation date: June 2024
